

Flight Simulation: 40th Anniversary of the First RAeS International Symposium

**Wednesday, 9th June 2010 to Thursday, 10th June 2010
Location: No.4 Hamilton Place, London W1J 7BQ**

Summary:

The Conference aims to review the papers delivered at the first RAeS International Symposium which was held in 1970.

It will consider the issues discussed and tease out those issues that still cause problems today.

It will then look forward and will examine the issues in light of current and future technology.

The Conference aims to facilitate discussion on cutting edge advances in flight simulation technologies and the implications and opportunities for the flight training community.

It aims to propose ways whereby some of the issues may be resolved.
